AB HOME recognizes the important role a designer plays in putting together an interior space, but not everyone has the time, or the budget. Our unique program, Online Design, allows a homeowner or business owner to receive quick and easy design consulting, that is easily accessible and affordable.

We can provide assistance in furniture selection, color consulting, window assistance and furniture placement, all done *virtually*. Quickly and easily.

So how does this work?

- 1) Send us photos of your space along with floor plans via email or through regular USPS. If you want a schematic floor plan we will need scaled drawings. If you don't have these don't worry; we provide a local service that can do this for you. You can also enlist someone in your area to get them.
- 2) Once we see the drawings and photos, we get to work on the scope of work desired.
- 3) If a space plan is what you are after, we take the measurements or working plans and create a scaled plan that includes furniture dimensions. We specify exact furniture from our library or you can use this plan as a working roadmap that you can use at your own pace. With a detailed plan.
- 4) Window consulting determines types of privacy or decorative treatments available. We put together photos of ideas and a list of options for either one that coordinates with your existing decor.
- 5) Color consulting selects the right colors for your desired room. Let us know your ideas and direction of style and we will choose the right color or colors by putting together a collection of two or three options.
- 6) Communication can be done via email, mail or over the phone, which ever you prefer.
- 7) Have a question or design need not covered in the above? Send us your questions and we can help!
